1953 PRICE LIST ON AFRICAN VIOLETS

(Plants and Leaf Cuttings)

WHOLESALE AND RETAIL

The plant prices on this list are for single crown plants in 2½" pots, in bud or bloom. The largest available are always sent, but if ordering in quantity, it is best to list several substitutes in case we are temporarily out of any variety.

The WHOLESALE prices should be used if ordering 25 plants. (These can be 25 different, if desired.) These are shipped in their pots, packed 25 to a carton, and are sent express collect.

The RETAIL prices should be used if ordering 1 to 24 plants. These are sent postpaid using blocks of United States Commemorative stamps (from the Philatelic Agency in Washington, D. C.) for postage. LEAF ORDERS are sent by first class mail to speed delivery, and commemorative blocks are also used on these. Plant and leaf orders can be combined, but for orders under \$5.00, please add 50c for postage and packing. These orders will be shipped as soon as the weather permits.

FOR CANADIAN CUSTOMERS

To import leaves and plants into Canada from the United States write to Chief, Division of Plant Protection, Science Service, Dept. of Agriculture, Ottawa, Ontario for a permit to cover each importation. The application for a permit should state: number of leaves or plants to be imported, kind and variety, value, name and address of importer, name and address of shipper, point of destination (if different from importer), and method of shipment (as by parcel post). The permit will be sent to you with instructions for its use in sending your order to me.

A REQUEST

When you are through with this price list, or if you don't care to order violets by mail, would you please pass is on to some other violet collector who might be interested in seeing it. I'm sure that anyone who orders will be well satisfied with my plants.

AN INVITATION

If you're ever in the Western New York area, I hope you will visit my GREENHOUSE. It's located on Route 19, one mile south of Warsaw. Visitors are always welcome. There are over 30,000 violets in propagation at all times.
